ConnectionPoint Platforms

Getting Started · https://connectionpoint.com/help/docs/connectionpoints-platforms/

ConnectionPoint platforms bring crowdfunding that is tailored to fit unique needs.

Learn here about FundRazr, CoCoPay, Crowdfundr, and PetFundr.

FundRazr

Our flagship platform, released in 2009, FundRazr is a powerful and comprehensive tool for crowdfunding cause-related projects. FundRazr's users include:

- Nonprofits and charities
- Social enterprises
- Businesses running corporate social responsibility projects
- Schools
- Sports teams
- Animal rescues
- Fiscal sponsors
- Individuals looking to fund a need, be it their own or for a loved one.

Learn more about FundRazr

CoCoPay

CoCoPay stands for **co**llaborative **co**mmunity **pay**ments. It launched in 2021 to bring a solution to healthcare access. Treatment centres, clinics, hospitals, medical-device manufacturers, and other healthcare professionals provide their patients with the CoCoPay financing solution to further open access to their products and care. This is medical crowdfunding done differently - funds raised transfer *directly* to the provider, removing barriers such as misrepresentation, privacy concerns, and huge interest fees.

Learn more about CoCoPay

Crowdfundr

In 2022 we realized the creator community needed something different - a platform designed *by them and FOR them!* FundRazr housed creative projects; however, it soon became apparent that we

could easily finagle it to be more creator-friendly. We collaborated with creators, and listened to their concerns and needs, and Crowdfundr was born! Now creators can raise funds to develop their projects in a flexible, easy-to-use way that puts THEM first.

Learn more about Crowdfundr

PetFundr

2023 brought the release of PetFundr - an animal-centric platform that had all of us here giddy because we are HUGE animal lovers! We even have a Director of Fun and Cute - Gus - who graces our Fundraiser newsletter every month.

Again, FundRazr hosted hundreds of pet and animal-related campaigns throughout its life. We decided that, just like CoCoPay, we could help animal care become more accessible too. Pet parents can campaign their networks to help them fund much-needed care, veterinarians can open up a direct line from their patients' networks to their clinics for secure, authentic collaborative payments, and rescues, shelters, sanctuaries, and animal welfare groups can run multi-level projects to realize their causes.
