How does the platform handle sales tax?

Campaign FAQ · https://connectionpoint.com/help/docs/how-does-the-platform-handle-sales-tax/

Sales tax is NOT calculated by the platform.

If you have Products for purchase as a Reward item, you will have to consider sales taxes. The platform does NOT automatically calculate this. You will have to determine the price of your reward item, *including* the sales tax (you can mention it is included in the description).

Donation-based campaigns without rewards do not have to worry about sales tax. However, **income tax** might be a concern if you aren't a registered nonprofit in your country. It's possible your government will consider any donations a 'gift' and, therefore, not taxable. This is something that differs greatly between countries and states/provinces, so be sure to educate yourself on the tax implications of your campaign.

Any questions regarding sales taxes or income taxes should be brought to a trusted accountant. We are not accountants, so we, unfortunately, aren't able to assist you with this part. Also, remember that tax laws can change, and it's essential to stay informed about any updates or modifications to sales tax regulations that may affect your crowdfunding campaign. Seeking professional advice is crucial to ensure compliance with applicable laws and regulations.
