How to create a ConnectionPoint user account and get started

General User Account Information · https://connectionpoint.com/help/docs/how-to-create-a-connectionpoint-user-account-and-get-started/

ConnectionPoint user accounts are universal across all platforms: FundRazr, CoCoPay, Crowdfundr, and PetFundr. So no matter which platform you're looking at, you can easily switch between campaigns, organizations, and/or contributions your user profile is associated with.

Welcome to the ConnectionPoint family!

We're excited you're joining us!

Each platform under the ConnectionPoint Systems Inc. brand family has a 'get started free' button on the homepage:

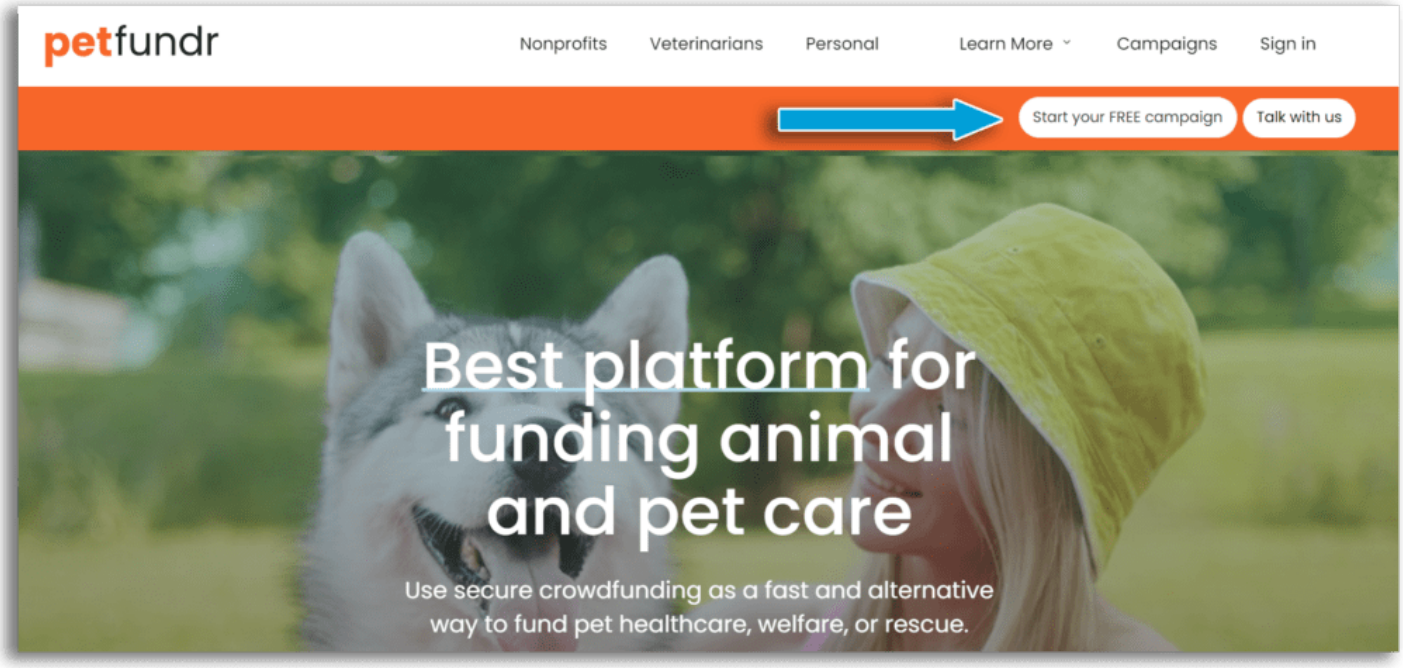
Note: Only CoCoPay Personal campaigns may begin from the homepage. For Professional, please contact our team.

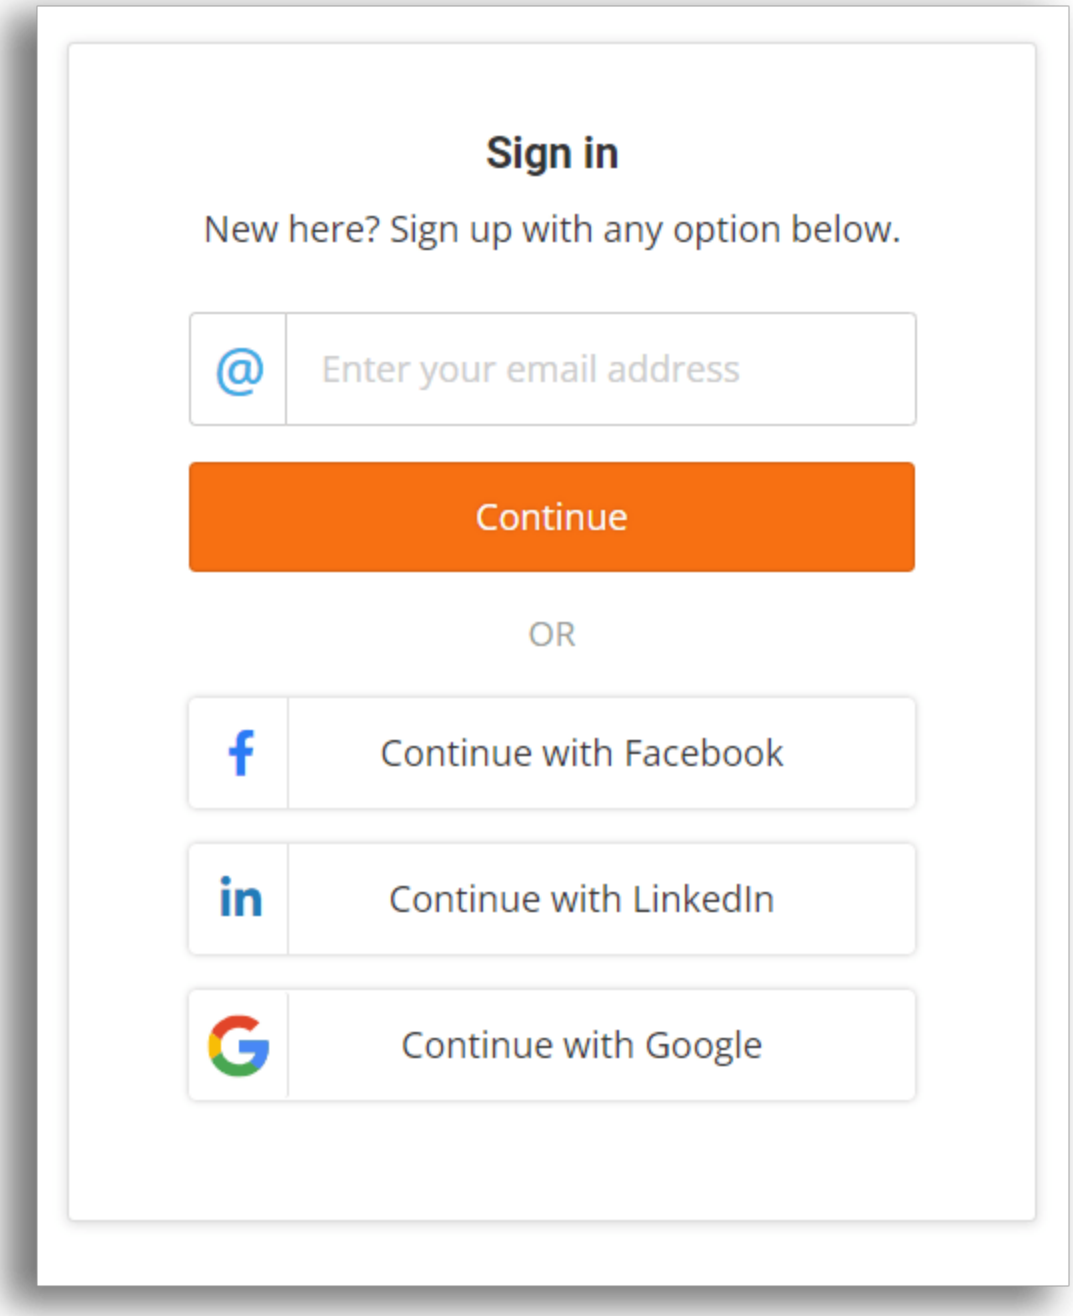
crowdfundr

petfundr



When you click one of these buttons, you're taken to the first page of the campaign creation flow, where you choose whether you are beginning a campaign for an organization or an individual (personal campaign).

You will then see the signup/log-in menu to create your user profile, either with a manually entered email and password or a Google, Facebook, or LinkedIn account.



Log in the same way each time, or link your accounts to avoid confusion.
