Who is ConnectionPoint? How is it connected to FundRazr/Crowdfundr/CoCoPay/PetFundr?

About ConnectionPoint · https://connectionpoint.com/help/docs/who-is-connectionpoint-how-is-it-connected-to-fundrazr-crowdfundr-cocopay/

ConnectionPoint Systems Incorporated (CPSI) began in 2008 because Daryl Hatton - our Founder and still our CEO - saw a need to fill.

He was coaching his son's lacrosse team, and all he wanted was a way for information to flow to the players' families and allow them to pay their fees online easily.

Through his desire to fill this need, the first version of FundRazr was born.

ConnectionPoint is the company behind the platform. FundRazr, CoCoPay, Crowdfundr, PetFundr, Sponsifi, and CampaignHQ are all trademark platforms owned and operated by ConnectionPoint.

A progressive company that puts people first, ConnectionPoint's guiding principles are:

1. **Transparency -** We are committed to serving our community with a high degree of technology and business transparency.
2. **High standards of excellence -** We take data security, platform stability (uptime >99.9%) and user experience seriously. We continuously invest in enhancing our core technology to maintain the best standards across all our platforms.

3. **Generosity -** We believe that together with our community, we can make the world a better place by powering generosity in funding, knowledge, and innovation.
4. **Accessibility to high-quality technology -** To grow a positive impact on the community, we strive to provide access to our platforms to as many organizations and communities for free or as close to it as possible.
